

Zuellig Group Honors Washington SyCip

The Washington SyCip Garden of Native Trees, a 4,700-sqm. garden developed by the Zuellig Group as a tribute to an esteemed friend, was turned over to UP Diliman last July 5. The garden is a model site for the National Greening Program created by Presidential Order 23, which aims to establish urban native forests by planting indigenous and endemic trees in public schools.

Daniel Zuellig,
director, Bridgebury
Realty Corporation;
Washington SyCip;
Mario Deriquito,
Undersecretary
of partnerships &
external linkages,
Department of
Education; **Dr.**
Caesar Saloma,
